OBJECTIVE

Computer Engineer position or computer science position (IT in general) where excellent technical skills and my own skills, knowledge and experience will add value to operation.

SKILLS

Computer skills

- Good typing speed.
- Familiar with: Microsoft Word, Microsoft Power Point.
- Excellent knowledge in internet and applications.

Software And Hardware Skills

Computer Maintenance.

Web Application Development and Software Engineering.

Programming Languages :

- C++
- JAVA
- PHP
- JavaScript
- HTML and CSS
- Prolog
- Database system concept and Database Tools: MySQL.
- GUI and Web Designing Tools: Dream Weaver, Microsoft Expression Web.
- Familiar with MATLAB.
- Processor and Microcontroller: 8086 programming with Verilog (HDL).
- Familiar with MASM, MULTISIM, and VERILOG programs.
- Good ability to read others codes.

Others

- Ability to learn fast.
- Willing to learn new things.
- Possess the desire to learn independently.

- Possess the desire to acquire deep knowledge, skills and specialist professional capability.
- Having strong problem-solving and analytical skills.
- Good team work and the ability to work under pressure.

ACADIMIC PROJECT AND OTHER PROJECTS

Web Based Application: The Family Tree Organizer

1. **Technology Used:** PHP and MySQL database, with HTML, CSS and JavaScript for GUI.

This project uses the internet to allow the members of a family whenever they are to maintain their family tree, and keeping it from loss.

It has the ability to display the family tree, add child , delete member, and edit member info by just clicking on that member on the tree.

It works for unlimited family members. And it is not for one family it can support many families and the security is maintained by allowing authenticated users to interact directly with the tree. My contribution for the project is, the development of the tree with right click, zooming, and edit members form, besides the connection with the database.

Simple School Accounting System

2. **Technology Used:** PHP and MySQL database, with HTML, CSS and JavaScript for GUI.

This is a simple accounting system which maintains records for every student, these records contain what the student should pay , what he/she has paid so far and other financial stuffs.

Besides, it edits a payment check, returns lists of those students who didn't pay with contact informations, prints warns, it can allow the user to search for students, and it has the ability to raise the students to the next class for the next studying year.

Security is maintained by allowing authorized users to use the system by giving them user name and password.

The system can also create backup files of the school database to keep the system from lost in case of computer system failure.

EDUCATION AND TRAINING COURSES

Al-Ameera Tharwat School 2003-2004

- The general secondary Education Certificate.

The University of Jordan 2005-2010

- Bachelor degree in Computer Engineering, with academic degree of Good (GPA of 2.82).

LANGUAGES

Arabic Excellent Write/Read/Speak

English Excellent Write/Read/Speak

Japanese Beginner Write/Read/Speak

French Beginner Write/Read/Speak

WORK EXPERIENCE

June,2008 – Aug,2008

Ministry of Public Works and Housing(MPWH)

As a practical training that every engineering student is required to undertake. In MPWH I worked in the IT department, which demands software and hardware maintenance, including: formatting, downloading programs, with the ability to deal with all hardware problems and troubles.

Sep,2009– Feb,2011 (ليست بخبرة شركات)

PHP Programming and Web Application Development.

As a required fulfillment of my graduation project I worked in the field of Web development and PHP programming from Sep, 2009 until June, 2010 and resulted in the development of The Family Tree Organizer.

I continued working in web development and PHP programming and developed The Simple School Accounting System upon request from Al-Ahad and Al-Wa'd school manager, and I'm still working by my own just to improve my skills and gain professional capability in this field.

July,2011- Sep,2011

Painting on walls

Drawing paintings of cartoons on the walls of the kindergarten of Al-Ahad and Al-Wa'd school.

PERSONAL INFORMATIONS

Place & Date Of Birth: Kuwait 7th Nov, 1986

Permanent Address: Amman / Na'ur / Al-Yasameen Neighborhood / behind Al-Aqsa Supermarket

Nationality: Jordanian

Hobbies: Playing Video Games, Drawing Anime, Learning Foreign Languages, Reading.

Marital Status: Single

NOTE : I am fully prepared to take any additional courses needed for the job
